

End-to-End Open Networking Solutions

Wired & Wireless Infrastructures – SONiC | OPENWIFI

Simple, Cost-Effective, Total Open Networking Solutions

Dorado's offers End-to-End Open Networking Solutions for Wired & Wireless Infrastructures, including Whitebox Open Networking Hardware, Software for Open Networking in the Cloud (SONiC), OpenWifi, and more. We specialize in empowering WISPs with cutting-edge open networking solutions that deliver value across Broadband Access, WiFi, FTTx / ETTx, and 5G technologies. Our cost-effective hardware-SONiC-software packages are designed to help you build robust, future-proof networks, break free from proprietary systems and bring substantial cost savings, simplicity, and scalability to your operations.

KEY BENEFITS

Streamline Deployment & Scale Easily

- Simple Migration & Deployment
- Greenfield & Brownfield Support

Cost-Effective for Funding Challenges

- Meet State, Federal, Private, and BEAD Funding Requirements

Maximum Hardware Choice & Agility

- Plug & Play Flexibility
- No Vendor Lock-in
- Lowest TCO
- Long Lifecycle

Seamlessly Extend Dorado's Solutions

- Corporate Data Centers
- Campus Environments

Simplify Operations with Cruz OSS Broadband Management Platform

- Hardened, User-friendly Tools for Monitoring, Automation, Compliance, Service Provisioning
- Single Source of Truth DB for Invaluable Visibility and Control
- Advanced Troubleshooting to Proactively Resolve Issues and Reduce Truck Rolls
- Reduce OPEX
- Multi-vendor
- Deploy On-premises or Cloud-based

Single Source of Technology Stack, Deployment Services, and Ongoing Support Ensures Simplicity & Reliability

Your Path to Open Networking

Dorado Integrated Packages – HW | SONiC | SUPPORT | SERVICES | CRUZ OSS

Why Dorado's Integrated Total Open Networking Solution?

Dorado provides and integrates everything you need—networking hardware, SONiC, deployment services, comprehensive support, and the Cruz management platform!

- **Networking Hardware** – Data center, campus wired and wireless infrastructure
- **Enterprise SONiC or Community SONiC**
- **Consultation, Service & Support** – From a single source
- **Cruz Multi-vendor Broadband OSS Management Platform** – Backed by our robust Cruz software portfolio, rapidly deploy new services and networks, simplify and operate SONiC networks without an expert... and quickly scale! Streamline your network operations with integrated monitoring, automation, compliance, and service provisioning and tuning. **Whether you're scaling up, future-proofing, or enhancing customer experience, our solutions make it seamless while reducing costs.**

Our total solution guarantees simplicity & reliability and empowers you with tools & services for seamless NetOps—with no vendor lock!

- 1. Solution Consultation**
Consult with Dorado experts to understand your organization's unique networking needs.
- 2. Select & Source Integrated Package (HW, SONiC + CRUZ)**
Dorado sources from leading hardware manufacturers and various SONiC distributions all bundled with Cruz.
- 3. Network Design and Deployment – Error-Free**
We'll help design robust, scalable networks with precision and deploy with minimal downtime and optimal performance from day one.
- 4. Visualize Your Network Topology**
Gain a clear and intuitive understanding of your network with our advanced visualization representations with valuable insights into your network.
- 5. Automate, Control & Monitor NetOps**
Immediately benefit from Cruz management platform to smooth daily operations with Automation, Real-time Monitoring, Alerts, Compliance, Configuration + much more!
- 6. Service Provisioning with Continuous Optimization**
Stay ahead of changing requirements with dynamic service provisioning and tuning.
- 7. Scale Effortlessly**
Scale your operations without disruptive overhauls, ensuring your business is always future-ready.
- 8. Single-Source Services and Support**
Convenience of comprehensive, end-to-end service and support under one roof.
